Follow these instructions to make your measure and sizing a success!

BODY MEASUREMENTS

- Measure in bare feet wearing form-fitting garments (sports bra & shorts, leotard, biketard, or unitard).
- One person should measure entire group.
- Body Measurement is correct when the tape measure is snug.
- Band Today takes no responsibility for incorrect sizes.
- Please contact us if you have questions regarding Body Measurements.

HOW TO MEASURE (SEE VISUAL AID)

BUST/CHEST – Stand with arms down and measure around the torso & under the arms at the fullest part of back and bust/chest.

WAIST – Measure around the narrowest part of natural waistline, usually at the navel.

HIP – With feet together, measure the fullest part of your hip.

GIRTH – Place tape measure starting at center of shoulder down the torso, through the legs, and up the back, meeting the tape measure at the shoulder.

NOTE ABOUT INSEAM – All unitards/jumpsuits/bibbers/pants are produced unhemmed with added leg length, allowing personalization. Minor alterations should be anticipated.

DETERMINING SIZE

- The sizing chart shows the smallest body measurements for each size.
- Determine each Body Measurement Size then decide Garment Size based on the range and your fit preferences.
- When between sizes on chart, select the smaller size for an "athletic fit" or a larger size for a "relaxed" fit.
- In unsure, choose the larger size for allowance to alter garment if needed.
