

Size SMALL Gloves

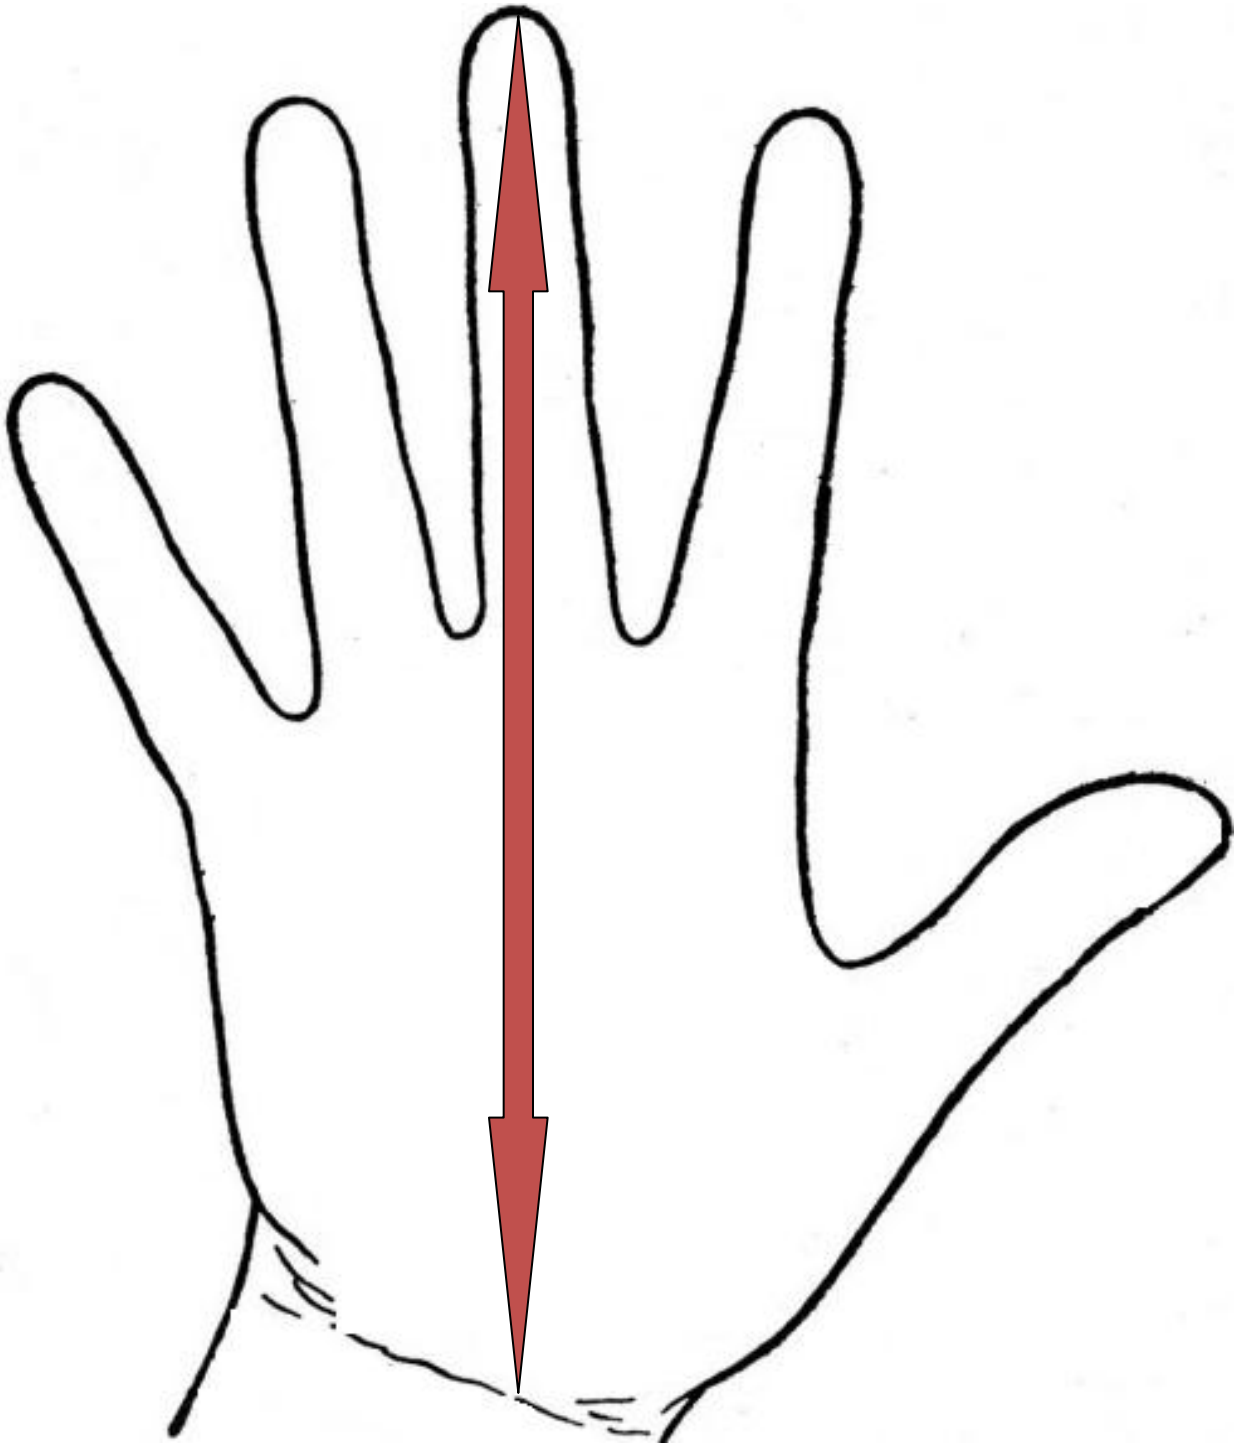

6 Inches from tip of middle finger to top of wrist

- The most important guide is the measurement from the tip of the middle finger to the beginning of the wrist.
- Place the student's hand on the guide and if their middle finger covers the hand pattern, try the next size up. Don't worry if their other fingers don't align perfectly, as their hand may be broader than the pattern.
- Please note that every brand of glove is sized slightly differently, but this measuring guide will get you a bit closer than just guessing sizes!

Size MEDIUM Gloves

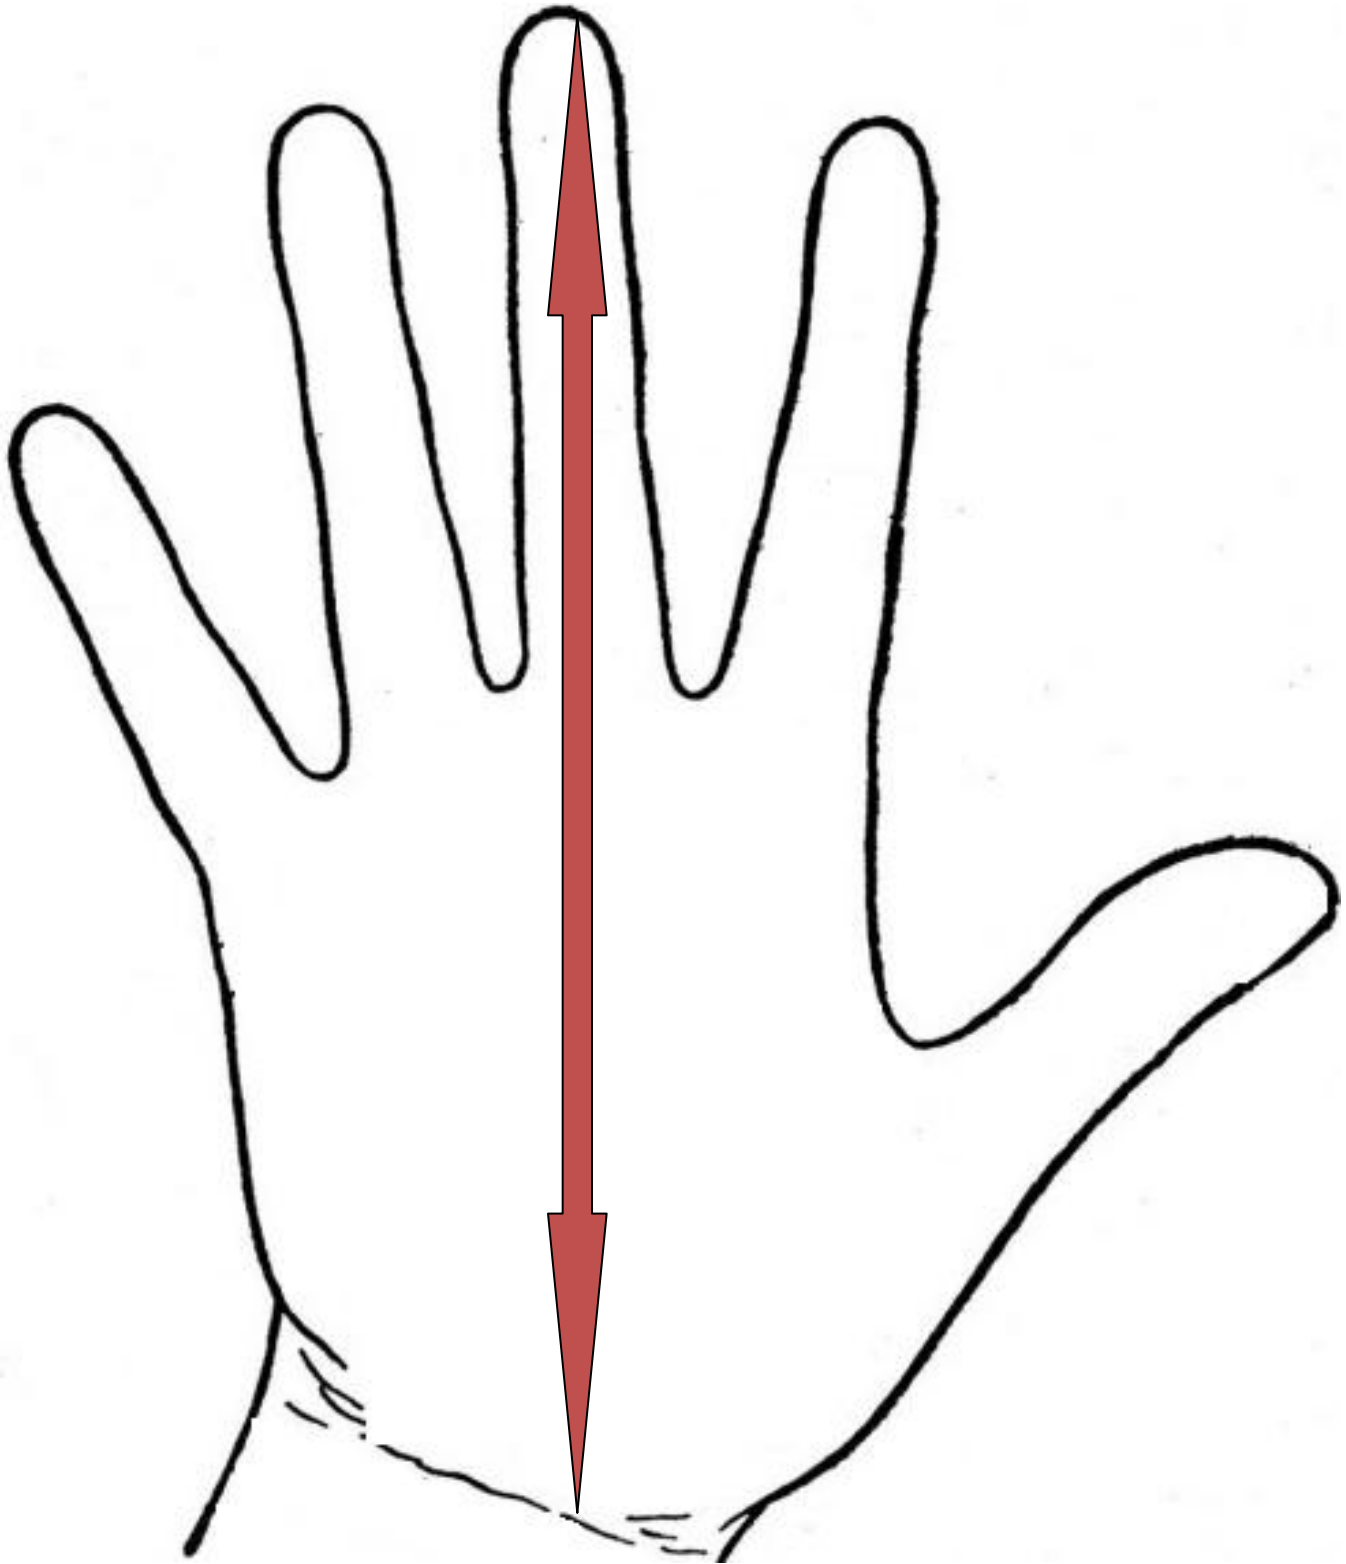

7 Inches from tip of middle finger to top of wrist

- The most important guide is the measurement from the tip of the middle finger to the beginning of the wrist.
- Place the student's hand on the guide and if their middle finger covers the hand pattern, try the next size up. Don't worry if their other fingers don't align perfectly, as their hand may be broader than the pattern.

Size LARGE Gloves

8 Inches from tip of middle finger to top of wrist

- The most important guide is the measurement from the tip of the middle finger to the beginning of the wrist.

Size XTRA-LARGE Gloves
9 Inches from tip of middle finger to top of wrist
